OPENING NETWORK FRONTIERS

***eLighting*TM lighting control for Niagara® AX**

CNS has developed a range of web-based specialist *eLighting*TM applications, components and drivers for Tridium®'s Niagara® AX Framework. This enables seamless integration of intelligent lighting systems with existing and future planned projects based on Niagara AX.

CNS's initial Niagara AX offering is focused on delivering, drivers, lighting and control components and lighting management applications for DALI® lighting systems. CNS also provides custom solution development.

*eLighting*TM Solutions for Niagara AX

Why do you need eLighting solutions for Niagara AX?

Increasingly, owners, users and maintainers of commercial buildings are focusing attention on their lighting systems. The prime drivers for this are Conservation, Regulation and User Productivity and Comfort. The ability to leverage additional benefits from investment in building control solutions based upon Tridium's Niagara AX is also very attractive. For Niagara AX System Integrators eLighting offers: -
