

How to become a **Certified eLighting™ Partner (CEP)**

An **eLighting™ Partner** must:

-  Be a company who are amongst Tridium’s most experienced and successful Niagara AX™ System Integrators
-  Be experienced in DALI® intelligent lighting system commissioning, control and management
-  Or, be a specialist DALI® lighting design, installation and commissioning companies who are trained as CNS Niagara AX™ System Integration partners.
-  Have purchased an **CEP Starter Kit** with which they have familiarised themselves
-  Commit to make **eLighting™ for Niagara AX™** their preferred lighting solution
-  Set up an **eLighting™** demonstration in their own facilities
-  Proactively promote and sell **eLighting™** as part of their solution
-  Recognise and respect **eLighting™** as the trade mark of Control Network Solutions Ltd’s web based Niagara AX™ DALI® lighting products and solutions.
-  Sign this document and Control Network Solutions Ltd’s Non Disclosure Agreement

All shipments are subject to CNS’s standard terms and conditions of sale. Any deployment of CNS’s **eLighting™** products can only be carried out by a **CEP** and are subject to the [eLighting™ Software End User License Agreement](#) and in particular we draw your attention to **Clause 7**. For Clarification it is an absolute requirement of **CEP’s** that the DALI® lighting components be installed by a Qualified, Certified Electrical Contractor and such a Contractor must adhere to all local and state regulations including but not limited to seeking local and state requirements for minimum light levels.

The benefits of becoming an **eLighting™ Partner** are:

-  Delivering the world’s first web based DALI® commissioning, control and management solution within Niagara AX™ that directly connects DALI® to a Niagara AX™ platform
-  Being listed on the **CEP** web page of CNS’s website
-  Preferential **eLighting™** product pricing
-  Access to **CEP** only’ information offering both a useful resource for promoting DALI® lighting control and the latest **eLighting™** released software files
-  Any **eLighting™** business opportunity identified to or by CNS in the partners region will be forwarded to the Partner/s for follow up
-  Partners will be able to input ideas and features to the on going development of **eLighting™**
-  Partners will be able to evaluate pre public released **eLighting™** products
-  CNS will bring other specialist partners to help **CEPs** promote, quote and deliver successful **eLighting™ for Niagara AX™** projects

As a Director of (Company Name).....

(Company Address)....., we agree that we will be bounded by the above requirements.
