

How using elitedali for Niagara AX® to connect up to 1,280 DALI Lights compares to a traditional intelligent lighting solution

Any Suitable Web Browser Platform

Ethernet, TCP/IP, HTTP, XML, oBIX, BACNet, LonWorks

Multiple OEMs

1 x Niagara AX® Platform
+ elitedali

1,280 DALI®
Lights

- Multiple sources of Niagara AX platforms, System Integrators & Providers, Open Standards Controls, Web Browser platforms
- Less hardware, less power consumption, less CO2 emissions, Open DALI standard, Native Niagara AX BMS solution
- Simpler architecture, installation, commissioning, controls, maintenance, management

In a traditional LCM intelligent lighting control solution everything inside this box would come from one lighting controls supplier i.e. Hardware and software

Some number of these

Area Network Controller

128 of these
