

Tokay Engineering Services Inc. becomes a US *Certified eLighting™ Partner*

Control Network Solutions Ltd (CNS) is pleased to announce the addition of Tokay Engineering Services Inc. to the growing number of worldwide ***Certified eLighting™ Partners***. ***eLighting™*** enables these partners to deliver highly sophisticated entirely web based "Open" standards lighting control solutions.

CNS is the creator of ***eLighting™ for Niagara AX™***. This is a product suite of software and hardware that enables the direct connectivity of Open standard DALI® intelligent lighting devices to hardware platforms running Tridium's Niagara AX Framework®, a software framework that integrates diverse systems and devices - regardless of manufacturer or communication protocol - into a unified platform that can be easily managed and controlled in real time over the Internet using a standard web browser.

Jim St.Claire, President of Tokay Engineering Services, says:

"Tokay Engineering Services is an Automation Controls and Systems Integration consulting firm. We partner with the finest automation contractors and advanced programmers throughout North America and Europe to integrate Multi-Vendor DDC Control Systems and provide custom engineering services to suit our clients' needs.

We have the experience and capabilities to integrate legacy and newer state-of-the-art automation systems. We believe in the "best of breed" philosophy and ***eLighting™*** is one we identified last year at Tridium's US conference. We believe ***eLighting™ for Niagara AX™*** will significantly contribute toward helping our clients deliver on the necessary and urgent issues surrounding energy use, cost and conservation in our country"

End users of eLighting™ for Niagara AX™ benefit from:

- 1) Reduced energy wastage, lower cost of energy and ownership
- 2) Ability to comply with the latest and future Building Regulations
- 3) Smarter integration and user experience
- 4) Suitable for both new and retrofit
- 5) Open standards based solution
