

Control Network Solutions

OPENING NETWORK FRONTIERS

CNS is proud to launch its latest **elite DALI® Solutions Connectivity Kit**. This is the first release of the next generation of entirely web based intelligent DALI® lighting commissioning, control, management and maintenance solutions for Open standard DALI® networks directly connected to any Niagara AX® web converged platform.

Since successfully launching the original **eLighting™ for Niagara AX®** this next generation solution has been in development. It leverages all the learning from the first mover **Certified eLighting Partner (CEP)** organisations' deployment experience with **eLighting™**, in addition to new innovative ideas already planned but requiring an updated interface to deliver.

This latest elite DALI Solutions Connectivity Kit will form the development base for all currently foreseen future developments. It will offer unprecedented levels of DALI network device commissioning, configuration automation, simplified implementation of highly sophisticated lighting control strategies, operation, user information, scalability and flexibility, including any future DALI®/NEMA® standards. It will seamlessly deliver an open and future proofed solution at lower cost enabling a wider global market to benefit from full automated lighting control.

Further, this solution truly offers a great Return on Investment as it can be adapted to meet unforeseen challenges including changes in legislation and client requirements.

For more information on finding or becoming a **Certified elite DALI® Partner (CEP)**, visit www.elitedali.com for details or Control Network Solutions Ltd directly, see contact information below.

eLighting is the trade mark of Control Network Solutions Ltd lighting control family of products for Niagara AX™. Tridium and Niagara AX are the trade marks of Tridium Inc. DALI® is the registered trademark of DALI-ag.org
